

Prepared Environment Framework

A Simple Way to See It All Together

A prepared environment is not about materials alone—it is about intentional design, coherence, and leadership shaping every element.

Leadership is the foundation. Each layer builds upon the one below it, creating a harmonious and intentional prepared environment that contributes to the success of the individual and the organization.

Leadership – The foundation that sets vision and direction

People – Those who create, serve, and use the environment

Ideas – Philosophy, values, and purpose

Tools – The instruments that enable the work

Objects – The physical environment and design

Nature – The surrounding context and conditions
